The 2020 Census Counts!

According to Census data Ottawa County ranks last, yes last, out of the 88 counties in Ohio in Census 2020.

Self-response rate with only 45.4% of households responding. Self-response is either online, by phone or by mail.

Census data is critical in determining the funding of local programs and our responses are required. If you did not receive a mailing you can go to My2020census.gov to get started.
